

CHICAGO'S BUS FRIENDLY STREETS: WARD REPORT CARDS

50TH WARD

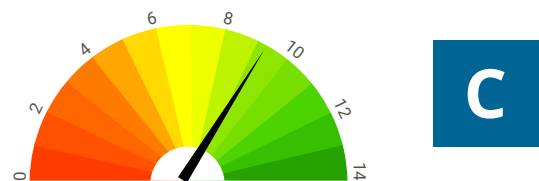

8 BUS ROUTES WITH 6,162 TOTAL WEEKDAY RIDES

Highest Ridership

Average Speed of 9.5 MPH

Slowest Buses

Approximately 7.4% of buses bunched

Most Bunching

Typical Wait Time

Solution:

Prioritize Buses on City Streets

Every day, Chicagoans take 826,322 rides on our city's buses, connecting them to jobs, schools, healthcare, and other services while taking up far less space than cars. Too often these buses are getting stuck in traffic and service is slow and unreliable.

Ways to improve bus service now:

Add more bus lanes with effective and equitable enforcement

Speed up boarding with tap and go payment at all doors

Give buses priority at traffic lights
